

GATEWAY EL DORADO WILL BRING TRAFFIC, AIR POLLUTION, NOISE

Gateway El Dorado is a massive Industrial Wholesale Distribution center in the El Dorado Hills Business Park at Latrobe Rd and Golden Foothill Pkwy. This development of e-commerce warehouses totaling up to 1,250,000 square feet with 300+ loading docks and truck ramps will bring more than 3,700 daily vehicle trips (mostly large diesel trucks), adding to the already congested El Dorado Hills roads. *The impact on our community and local businesses will be almost unimaginable!*

LITTLE TAX REVENUE FROM WHOLESALE OPERATIONS TO COUNTER IMPACTS!

Highway 50, Latrobe Rd and White Rock intersections will be impassable!

Large trucks threaten safety of cars, bicycles and pedestrians on congested roads!

Idling diesel trucks bring harmful exhaust emissions!

Diesel exhaust increases cancer, cardiopulmonary diseases and asthma!

Area parks, recreation, and exercise facilities will be impacted!

Nighttime operations with noise and light pollution affect area residents!

Potential environmental damage to the Carson Creek Preserve and wetlands!

***RESIDENTS, WORKERS, COMMUTERS, and STUDENTS
who live, work and go to schools throughout El Dorado Hills, particularly those
in and near the EDH Business Park and Town Center, WILL BE ADVERSELY
AFFECTED!***

Go to www.crhv.org/gateway for more information on how you can stop GATEWAY EL DORADO and to donate to the fight!
